

Regulation on the recovery and reclamation of products by enterprises Rules around displaying ecofees

November 1, 2023

The [RRVPE](#) has strict rules around how enterprises can display ecofees to customers on invoices and other marketing materials. The three options below follow the guidelines outlined by the provincial government.

Option A — very simple

Includes ecofees (recovery/recycling fees).
For more information: www.cleanfarms.ca

Option B — simple

Includes ecofees (recovery/recycling fees): \$0.31 per bag (45 kg and less), \$1.61 per bag (46 to 500 kg) or \$3.23 per bag (501 and greater).
For more information: www.cleanfarms.ca.

Option C — additional details

Please note that the price includes ecofees (recycling/environmental handling fees). The price varies depending on the size of the bags (\$0.31 per bag (45 kg and less), \$1.61 per bag (46 to 500 kg) or \$3.23 per bag (501 and greater)). Ecofees are not a refundable deposit. They are not a tax and are not collected by the provincial government. Our company remits these ecofees to AgriRECUP/Cleanfarms. The funds are used to cover the costs of collecting and managing feed bags at end of life.
