

# On-farm ag plastics pick-up

Cleanfarms is now offering free on-farm pickup of select ag plastics from high-volume growers across Western Canada!

## To qualify for on-farm pickup...

Growers must have a partial truckload of crop input packaging or ag plastics:

### CROP INPUT PACKAGING

#### Ag Chem Jugs

20 bags of jugs

#### Drums & Totes

26 totes, 100 drums, or a combination of drums and totes

#### Bags & Large Tote Bags

20 bags or bundles of seed, pesticide, or inoculant bags

### AG PLASTICS

#### Grain Bags

#### Twine

#### Bale Wrap

#### Silage Plastic

In 2026, available in the following provinces:

BC  
AB  
SK  
MB

BC  
AB  
MB

BC  
AB

BC  
AB

Minimum quantities vary by region.  
Contact Cleanfarms for more information.

Scan the QR code below or visit [cleanfarms.ca](http://cleanfarms.ca) for information on how to prepare each material for recycling.

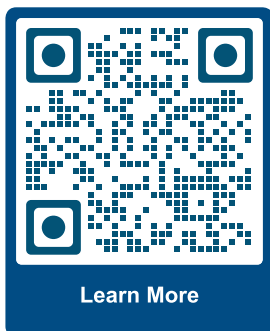

## The farm will ensure that:

- Material(s) is (are) easily accessible, free from obstruction, and on a solid/flat surface. The material(s) must be located at one central location on the farm for pickup.
- On the day of material pickup, ensure that someone at the farm is available to provide loading assistance to the driver.

## To get started...

Email [info@cleanfarms.ca](mailto:info@cleanfarms.ca) with the subject line "Free on-farm pickup" and provide:

- your farm name
- your address and contact information
- the quantity and type of material(s) for pickup

Smaller amounts and combination loads of different materials may qualify for free on-farm pickup. Contact us to learn more.
